

Rules for [Format Coconut] Beta

[Format Coconut] is a thematic multiplayer format for playing the *Disney Lorcana* Trading Card Game. You play in a group, with each deck built around a favorite character!

- First, use the app to choose a [Coconut] card. Each one has special abilities to use as inspiration for your deck and is associated with a specific *Disney Lorcana* card.
- Then, choose up to three ink types for your deck. One of them must be the same as your [Coconut] card's ink type.
- Next, build a deck around your [Coconut] card with at least 60 cards.
- Your deck can have up to 4 copies of the *Disney Lorcana* card associated with your [Coconut] card. You can't have more than 1 copy of any other card, though.
For example, say you choose the Sapphire [Coconut] card Moana – Curious Explorer. Your deck must include Sapphire cards and can include up to two other ink types. It can have up to 4 copies of the Moana – Curious Explorer character card, but no more than 1 copy of any other card.

[Format Coconut] uses the normal multiplayer *Disney Lorcana* rules with one important exception:

- ◆ The first player to reach 25 lore or more wins the game.

We recommend playing with 3 or 4 players for the best game experience. So, get some friends together, try it out, and have fun!
